RE: CFAC

Jami represent the Gateway to Glacier Trail. Her organizations interest is an end use for the sight that includes recreation access. They are working with the facility to obtain a license agreement to place a bike trail on the site. The county would take over the trail as part of its trail system, but it is concerned that there may be liability for the county associated with that. She wanted to know if there was anything we could provide to the county to eliminate that concern. She said they have been working effectively with the company and the county and would like that to continue.

I told her I would follow up with the site attorney and get back to her.

She also said that she didn't believe that the CFAC Liaison Panel represented the community, and she is interested in more information about forming a CAG. Her organization was not invited to join. She said there were others in the community that feel the same way, and she will have them get in touch with me. I told her we could follow up with another meeting in the community to discuss forming an independent CAG.
